

Judit Kedvesi founded Power of Two Montessori in Kennett Square, PA in 2022. Previously in 2008 she co-founded Triangle Montessori Academy, in Cary, NC. The school enrolled 110 students annually and served children ages 18 months to 7 years from 2007-2018. Judit graduated from “Apáczsa Csere János” Teacher Training College in Győr-Hungary with BA degrees in pedagogy and music. She has over thirty-five years of classroom experience with students ranging from two-and-a-half to fourteen years of age. Judit holds a Primary Montessori Certification from the San Francisco Montessori Teacher Training Center.

Judit has two children. Her older son is an accomplished scientist, and her younger son is in college. The children were successful Montessorians in their early school education.

Judit credits her European schooling for her love of teaching and learning.

In 1989, after her family moved to Silicon Valley, San Jose, CA and her first son was born, Judit found herself reflecting on her educational experiences and the mentor who first introduced her to Montessori theory. Warm memories of child-sized furniture and the encouragement of spontaneous learning, evolved her to further her pedagogical studies and pursue her Montessori certification at the San Francisco Montessori Teacher Training Center under Dr. Pamela Zell Rigg.

Judit started her Montessori job at Valley Montessori School under the mentorship of Mary Ellen Kordas, who has served on the board of the American Montessori Society as president and treasurer and as a member of the Montessori Public Policy Initiative Council. Judit is an active member and AMS conference participant of the American Montessori Society.

In 2007, after relocating to the Research Triangle, NC, Judit fulfilled a lifelong dream when she opened Triangle Montessori Academy (TMA). At TMA, Judit emphasized the importance of integrated programs in everyday learning. Music, gymnastics, art and science are thoughtfully interwoven into each classroom’s curriculum, as are practical life skills such as brushing teeth, combing hair and getting dressed. Judit also emphasized the importance of diversity. Every year Power of Two Montessori will host an International Day with children and parents to see and experience different cultures and customs. Judit is extremely proud of creating authentic Montessori schools. Most importantly however, Judit is proud that her schools exemplify the spirit of peace and inclusiveness embodied in the teachings of Maria Montessori:

“Culture and education have no bounds or limits; now man is in a phase in which he must decide for himself how far he can proceed in the culture that belongs to the whole of humanity.”
